

A voice for the victims killed by illegal aliens

February 28, 2016

Open Letter to All GOP Voters

Dear Republican Voter:

We write to you today as American citizens, and as The Remembrance Project's "[stolen lives](#)" families who have lost our children, siblings, parents and other close family members to senseless illegal alien killings. To bury your own child or loved one causes a pain beyond description or imagination, and a suffering we will carry every day of our lives.

As surviving families, we ask "Why was this allowed to be done to our innocent loved ones?" The inconvenient truth is that we have been betrayed by politicians who have not merely failed, but who have intentionally refused to enforce our immigration laws that would protect our families. Consequently, the people we so dearly loved have been sacrificed, many murdered in cold blood, by violent criminal illegal aliens who should never have been allowed into our communities.

Sadly, the single most egregious Congressional promoter of open borders is GOP Senator Marco Rubio. As a key member of the notorious "immigration reform" Gang of Eight committee, Rubio's amnesty plan was hatched, not only to give mass amnesty to illegals, but was done through daily lies about its contents:

- Rubio boldly claimed it was *security first* - but it was *amnesty first, security never*.
- Rubio said *no amnesty for criminals* - but in reality it allowed *amnesty to some of the most dangerous criminals in America*.
- Rubio said it was the *toughest bill ever* - it was the *worst bill ever, supported by virtually every open borders politicians inside and outside Congress*.

Through this process, Senator Rubio steadfastly ignored our families *and the warnings of law enforcement*. Not once did he reach out to our families, or other families whose loved ones' were killed by the illegal aliens. In the aftermath of 2013, and even today, each time Rubio has a chance to do something on behalf of American victims, he chooses instead to push amnesty and side with open borders and foreign interests to make life harder and more dangerous for law-abiding American families.

We do not want other families to die at the hands of illegal aliens. We want to end the massacre of innocents in exchange for enriching open border self-interest cartels. We are pleading with the Republican voter:

**Reject Rubio.** Send a message to every politician in Washington D.C.: **if you betray American citizens, you will never occupy the Oval Office.**

Sincerely,

Maria Espinoza  
Co-founder and Nat'l Director

**Juan Benavides** – His brother, Jessie 32, was shot nine (9) times at a children's birthday party. His young son witnessed the murder. Jesse was his only living family member. Dallas, Texas, is a sanctuary city.
