Why are Congressional Democrats on the House Oversight Committee Investigating Parler?

As Twitter and Facebook became more brazen in their politically biased censorship, Americans turned to Parler. By November 2020, Parler had the most downloaded app on Apple's U.S. App Store and on Google's U.S. Play Store, becoming more popular than TikTok, Zoom, and YouTube. On January 8, 2021, the day after Facebook and Twitter banned President Trump from their platforms, Parler had 20 million users and was again the top-downloaded app and the obvious choice for President Trump and his 90 million followers. Parler's rising popularity made Parler a viable threat to Facebook and Twitter's dominance over social media. So together, they colluded with Amazon to destroy Parler and used the horrific attacks on the Capitol on January 6, 2021 as a shameful excuse.
